Experience	<div><div>Intern at Subiz Innovations as Python Automation Engineer</div><div><div>• Jun 2023 - Nov 2023 · 6 months</div><div><div><div>• <b>Data Extraction</b> : Made a python bot which extracts the Nepal stock exchange stocks data into a csv file.</div><div>• <b>OCR</b> : Used a <b>PaddlePaddle</b> OCR which converts Bank statement images,pdf into excel sheet.</div><div>• <b>Data Cleaning</b> : Extracted data from different sites which i was able to clean for ML model training</div></div></div></div></div>
Projects	<div><div><div><b>Face Recognition Based Attendance System:</b> As a backend developer, I played a pivotal role in the development of a Face Recognition Based Attendance System. My responsibilities included real-time face recognition implementation. I contributed to the project's success by managing databases, ensuring seamless data flow, and integrating various components. This System features an admin dashboard for efficient monitoring of student attendance..</div><div><div>Libraries used :</div><div><div>• OpenCV</div><div>• Django</div><div>• Tensorflow</div><div>• PostgreSQL</div><div>• OpenVino</div></div></div><div><div><b>Inbrowser Proctoring:</b> As part of a fellowship, my team and I are developing an AI-based proctoring system for online exams. This system integrates advanced AI and computer vision technologies such as face detection, gaze tracking, head pose detection, mobile phone detection, and multi-person detection. The goal is to ensure exam integrity by accurately detecting suspicious behavior while respecting student privacy. By implementing these features into a web application, we aim to enhance the reliability and security of online testing, balancing automated AI monitoring with human review.</div><div><div>Libraries used :</div><div><div>• FastAi</div><div>• Pytorch</div><div>• FastAPI</div><div>• MySQL</div><div>• Dlib</div><div>• Intel OpenVino</div><div>• YOLO</div></div></div><div><div><b>TempleVision:</b> For my Final Year project, I undertook the development of TempleVision. In this project, I fine-tuned the generative model DeOldify using 2,500 colorful images of temples, specifically from Kathmandu, the capital city of Nepal. The primary goal was to enhance the model’s ability to colorize black-and-white photos into vibrant, colorful images, preserving the cultural essence of the temples.</div><div><div>Libraries used :</div><div><div>• Fastai</div><div>• Django</div><div>• Pytorch</div><div>• Django</div><div>• React</div><div>• REST API</div></div></div><div><div><b>Paiso.com:</b> For the Phoenix Tech Fest hackathon, I collaborated on developing Paiso.com, a financial literacy platform. The project aims to empower users to make informed financial decisions through tools like Paiso.com Insights, Smart Invest, and Financial Mastery Courses. We also integrated 'Hari,' a Nepali chatbot, to guide users and enhance their learning experience. Additionally, the DemoTrade feature allows users to practice stock trading with virtual money, making financial education interactive and accessible..</div><div><div>Libraries used :</div><div><div>• React</div><div>• Django</div><div>• Gemini API</div><div>• MySQL</div><div>• REST API</div></div></div><div><div><b>Others:</b></div><div><div>• Book Recommendation System</div><div>• Health Diagnose System</div><div>• Live Stock Data Webscraper</div><div>• OCR for bank documents</div><div>• EyeMate e-commerce site</div></div></div></div></div></div></div></div>
Training	<div><div><div>AI Fellowship</div><div><div>• <b>Fusemachines</b>   Apr 2024 - Present</div><div><div>• Engaged in a comprehensive AI fellowship focused on advanced machine learning, deep learning, and computer vision</div><div>• Applying technologies like face detection, gaze tracking, and head pose detection in Fellowship projects.</div></div></div></div></div>
Education	<div><div><div><div>Lincoln University</div><div>Maitidevi, Kathmandu</div><div>2022-2025</div></div><div><div>Bachelor of Information Technology</div><div>• BIT (Running )</div></div></div><div><div><div>Hope International College</div><div>Karkando , NPJ</div><div>2019-2021</div></div><div><div>High School</div></div></div></div>
